GIORGIA CIULLA
Web Developer

Experienced in Angular, JavaScript, HTML, Bootstrap, and CSS, with a solid foundation in Agile methodologies.

Currently diving into backend technologies like C# and Node.js and recently earned my Microsoft Azure Fundamentals certification.

Eager to join a vibrant team where I can continue to grow, innovate, and take on new challenges!

EXPERIENCE

WEB DEVELOPER - Foster + Partners Ltd, London (UK)
FEBRUARY 2023 - PRESENT

- Led the creation of a global web kit library consisting of reusable UI components.
- Collaborated closely with designers, product managers, and developers to align the library with project requirements.
- Integrated the library across existing projects, establishing a shared codebase that reduces errors, shortens development time, and simplifies onboarding for new team members. By standardizing components, developers can easily transition between projects without navigating complex or redundant code, relying on the unified components I developed.
- Implemented end-to-end tests using Cypress.
- Completed Microsoft Azure Fundamentals certification to deepen expertise in cloud fundamentals.
- Actively learning C# and Blazor through pair programming with backend colleagues, working on small tasks to enhance my skills.

WEB DEVELOPER - ENGINEERING S.P.A., Rome (IT)
MARCH 2021 - FEBRUARY 2023

- Contributed to the development of an internal management system for the Italian Ministry of Justice.
- Worked with the NgRx state management library, applying best practices to optimize data flow and enhance maintainability in Angular applications.
- Implemented a real-time notification system with the Ngx-mqtt library, enabling instant alerts and updates for the users.
- Led the initial phase of an internal project, I created the code

EDUCATION

JAVA Fundamentals -
Arces University College,
Palermo (IT)
03/20 - 09/20

A-level Scientific Diploma -
Platone Institute,
Palermo (IT)
2005 / 2010

TECH STACK

Html - Bootstrap - CSS

Angular 16

Cypress

RxJS - NGRX
